

The third International Conference On Crystallography :

"From symmetry to crystal"

On the occasion of 2014 year
of crystallography,

The Material Science and Environment Laboratory (M.E.S.Lab.)

and

The Common service and research unit (4 circles diffractometer)
of the Faculty of Science, university of sfax, Tunisia

and

CMTR, ICMPE, UMR7182, CNRS, Université Paris Est

and

The International union of crystallography (IUCr)

Organize

**The third International Conference On
Crystallography**

"From symmetry to crystal"

October 23–26th 2014

El-Mouradi Hotel

Douz-Tunisia

*Quasicrystal discovery
bags 2011 chemistry
Nobel*

Side activity : Exposition "Noise of atoms" B. Col and B.Navarra (CNRS)
