

**Call for Proposals until July 22, 2016:**

## **Connect, Contribute and Collaborate in a Series of Global eHealth Grand Rounds!**

**The Global Science Communities team of the MAGIC project intends to host virtual "Grand Rounds" in the month of September 2016, and is therefore requesting persons/organisations from across the globe to indicate their interest in presenting. Teams are encouraged to collaborate.**

### **Deadline for Submissions - July 22,2016**

The objective of the four initial eHealth Grand Rounds (similar to a medical specialist panel, presenting cases) is to share global initiatives within the themes of:

- eHealth (Health informatics, Telemedicine and Telehealth)
- Cardiology
- Standards for Telemedicine and Health Informatics
- Child and Adolescent Health

Presentations highlighting new or unique experiences, procedures, results, resources, research etc. are encouraged.

**Presenters:** Presenters will be professionals or specialists engaged in one of the above mentioned fields; at maximum 4 presenters per presentation.

**Language:** The sessions will be conducted in English

**Expected Audience:** National, regional and international health organizations, teaching institutions, health communities and specialists, online health-related communities, Global Science Community (GSC) participants; regional R&E Networks (RENs) and National R&E Networks (NRENs);and others identified by existing and new regions.

### **Dates:**

September, 6th - eHealth (Health informatics, Telemedicine and Telehealth)

September, 13th - Cardiology

September, 20th - Standards for Telemedicine and Health Informatics

September, 27th - Child and Adolescent Health
